		DATA W	AREHOUSIN	G AND DA	TA MINING			
Time: 3 Hours  DATA WAREHOUSING AND DATA MINING  Total Marks: 70								
Note:	1. At	tempt all Sections.						
		The same sections.				•		
			SECT	TION A				
1.	Atte	mpt all questions in	n brief.			$2 \times 7 = 14$		
	a.	Define Data Mini						
	b.	What is classifica				76		
	c.	Explain data gene	eralization.					
	d.	Why is data prepr	ocessing requi	red?				
	e.	Define data comp	ression?					
	f.	Explain Associati	on rules.					
	g.	What is backup an	nd recovery?		\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\			
			SECTION	B				
2.	Atte	mpt any three of th	e following:			$7 \times 3 = 21$		
	a.	Explain data clear	ning and phase	s of data cle	aning.	70		
	b.	What are the vario				ing?		
	C.	How does a Snow	flake schema	liffer from a	STAR schema	1?		
	d.	Define the terms	- Aggregation,	Historical In	nformation and	Query Facility.		
	e.	What is data ware	housing with i	ts advantage	s and disadvan	tages?		
			V			X		
			SECT	ONC				
3.	Attor	nnt any and a			00			
5.		npt any one part of			0	$7 \times 1 = 7$		
	(a)	Explain data integ	ration, transfo	rmation and	loading.			
	(b)	Define data reduction npt any one part of	tion? Write do	wn the vario	us strategies fo	r data reduction.		
4.	Attei	$7 \times 1 = 7$						
	(a)	Find out the mean	n, variance an	d standard o	leviation for th	ne height of animals		
	×	555mm,450mm,10	65mm,410mm	and 300mm		, and the second		
_	(b)	Explain attribute r	elevance analy	sis with exa	mple.			
5.	Atter	npt any <i>one</i> part of	f the following	:		$7 \times 1 = 7$		
	(a)	How CURE is diff	ferent from CH	IAMELEON	J	200		
	(b)	Explain Density-b	ased and Grid-	based cluste	ring methods.			
6.	Atter	npt any one part of	the following		Y =	$7 \times 1 = 7$		
	(a)	Write down the di	fference between	en OLTP an	d OLAP.	-		
	(b)	Explain various ar						
7.	Atten	npt any one part of	the following			$7 \times 1 = 7$		
	(a)	Explain web minir			with evennla			
	(b)	What are the essen						
		The same case of	ar arrioronoo	S DELWCEII (II)	C NOLAT and	IVIOLAP!
